2026

PROJECTS

Car Driving School Management System

Technologies: PHP, HTML, CSS, JavaScript, MySQL

Developed a modern Driving School Management System with role-based dashboards for Admin, Students, Office Managers, and Trainers. Features include student registration, package management, session booking, mock tests, LLR & Driving License management, certificate generation, and performance tracking.

Personal Portfolio Website

Technologies: Next.js, TypeScript, Tailwind CSS, GitHub, Vercel

Designed and developed a responsive portfolio website to showcase projects, skills, resume, and achievements. Integrated project demo videos and GitHub repositories.

Daily Coding Coaching Platform (In Progress)

Technologies: React/Next.js, JavaScript, MySQL

A platform that helps students practice coding daily, complete tasks, track progress, and improve their programming skills with streak tracking and leaderboards.
